CONTENTS

No. 1 AUGUST 1955

JAY BOYD BEST. The inference of intracellular enzymatic properties from kinetic data obtained on living cells. I. Some kinetic considerations regarding an enzyme enclosed by a diffusion barrier. One figure	1
JAY BOYD BEST. The inference of intracellular enzymatic properties from kinetic data obtained on living cells. II. A study of hexokinase and invertase as cellular components of baker's yeast. Three figures	29
S. N. SHAW AND JULIAN M. TOBIAS. On the optical change associated with activity in frog nerve	53
S. H. BRYANT AND JULIAN M. TOBIAS. Optical and mechanical concomitants of activity in carcinus nerve. I. Effect of sodium azide on the optical response. II. Shortening of the nerve with activity	71
STEPHEN W. GRAY AND BETTY F. EDWARDS. Effects of centrifugal forces on growth and form of coleoptile of wheat. Eight figures	97
RONALD A. BECKER AND ROBERT B. AIRD. Mechanisms influencing the permeability of the blood-brain barrier	127
R. G. GRENELL, J. MENDELSON AND W. D. MCELROY WITH THE TECHNICAL ASSISTANCE OF J. H. MENDELSON AND V. SONNENFELD. Neuronal metabolism and ATP synthesis in narcosis	143

No. 2 OCTOBER 1955

JULIAN M. TOBIAS AND S. H. BRYANT. An isolated giant axon preparation from the lobster nerve cord. Dissection, physical structure, transsurface potentials and microinjection. Seven figures	163
JULIAN M. TOBIAS. Effects of phospholipases, collagenase and chymotrypsin on impulse conduction and resting potential in the lobster axon with parallel experiments on frog muscle	183
JAMES R. REDMOND. The respiratory function of hemocyanin in crustacea. Nine figures	209
MARIO ALTAMIRANO. Electrical properties of the innervated membrane of the electroplax of electric eel. Nine figures	249
LEVON A. TERZIAN. The comparative morphological and physiological effects of various drugs on the sporogonous cycle of <i>Plasmodium gallinaceum</i> in <i>Aedes aegypti</i> . Thirty-four figures	279

ALVIN F. RIECK AND STANLEY D. CARLSON. Photorecovery from the effects of ultraviolet radiation in the albino mouse. Three figures	301
C. A. G. WIERSMA, S. H. RIPLEY AND E. CHRISTENSEN. The central representation of sensory stimulation in the crayfish. Three figures	307
RAMÓN VILLARREAL AND MARIO H. BURGOS. A correlated biochemical and histochemical study of succinic dehydrogenase activity in the gastric mucosa of the rat and frog. Nine figures	327
<i>Comments and Communications:</i>	
E. NEWTON HARVEY AND FREDERICK I. TSUJI. Cypridina luciferin luminescence with strong oxidants	341
W. R. LOEWENSTEIN AND ALBERT SZENT-GYÖRGYI. The effect of dinitro-naphthol on the membrane potential of the skeletal muscle fibre. One figure	345
F. T. DUN. The blockage of motor impulses in an asynchronized volley at the neuromuscular junction. One figure	348
SOCIETY OF GENERAL PHYSIOLOGISTS. Tenth Annual Meeting; Marine Biological Laboratory, Woods Hole, Massachusetts, September 9 and 10 ...	351

No. 3 DECEMBER 1955

WILFRID RALL. A statistical theory of monosynaptic input-output relations. Eight figures	373
WILFRID RALL. Experimental monosynaptic input-output relations in the mammalian spinal cord	413
WERNER SCHMANDT AND WILLIAM SLEATOR, JR. Deviations from all-or-none behavior in a molluscan unstriated muscle: Decremental conduction and augmentation of action potentials. Ten figures	439
A. CECIL TAYLOR AND ROBERT GERSTNER. Tissue survival after exposure to low temperatures and the effectiveness of protective pretreatments. I. Evaluation by growth in tissue culture. Seven figures	477
HELEN HARRINGTON AND PAUL S. LAVIK. A study of the phosphorus composition and P^{32} incorporation in irradiated lymphatic tissue	503
PAUL B. WEISZ. Chemical inhibition of regeneration in <i>Stentor coeruleus</i> . One figure	517
SEYMOUR GELFANT AND JACKSON J. CLEMMONS. The influence of estrogen on nuclear volumes and chemical composition	529

INDEX

- A**CTIVITY in frog nerve, on the optical change associated with 53
- AIRD, ROBERT B. See Becker, Ronald A. 127
- Albino mouse, photorecovery from the effects of ultraviolet radiation in the 301
- ALTAMIRANO, MARIO. Electrical properties of the innervated membrane of the electroplax of electric eel 249
- Asynchronized volley at the neuromuscular junction, the blockage of motor impulses in an. *Comments and Communications* 348
- ATP synthesis in narcosis, neuronal metabolism and 143
- Augmentation of action potentials, Decremental conduction and. Deviations from all-or-none behavior in a molluscan unstriated muscle: 439
- B**ECKER, RONALD A., AND ROBERT B. AIRD. Mechanisms influencing the permeability of the blood-brain barrier 127
- BEST, JAY BOYD. The inference of intracellular enzymatic properties from kinetic data obtained on living cells. I. Some kinetic considerations regarding an enzyme enclosed by a diffusion barrier 1
- BEST, JAY BOYD. The inference of intracellular enzymatic properties from kinetic data obtained on living cells. II. A study of hexokinase and invertase as cellular components of baker's yeast 29
- Blockage of motor impulses in an asynchronized volley at the neuromuscular junction, the. *Comments and Communications* 348
- Blood-brain barrier, mechanisms influencing the permeability of the 127
- BRYANT, S. H. See Tobias, Julian M. 163
- BRYANT, S. H., AND JULIAN M. TOBIAS. Optical and mechanical concomitants of activity in carcinus nerve. I. Effect of sodium azide on the optical response. II. Shortening of the nerve with activity 71
- BURGOS, MARIO H. See Villarreal, Ramon 327
- C**ARCINUS nerve, optical and mechanical concomitants of activity in. I. Effect of sodium azide on the optical response. II. Shortening of the nerve with activity 71
- CARLSON, STANLEY D. See Rieck, Alvin F. 301
- Central representation of sensory stimulation in the crayfish, the 307
- Centrifugal forces on growth and form of coleoptile of wheat, effects of 97
- Chemical inhibition of regeneration in *Stentor coeruleus* 517
- Chemical composition, the influence of estrogen on nuclear volumes and 529
- CHRISTENSEN, E. See Wiersma, C. A. G. 307
- CLEMMONS, JACKSON J. See Gelfant, Seymour 529
- Coleoptile of wheat, effects of centrifugal forces on growth and form of 97
- Correlated biochemical and histochemical study of succinic dehydrogenase activity in the gastric mucosa of the rat and frog, a 327
- Crayfish, the central representation of sensory stimulation in the 307
- Crustacea, the respiratory function of hemocyanin in 209
- Cypridina luciferin luminescence with strong oxidants. *Comments and Communications* 341
- D**ECREMENTAL conduction and augmentation of action potentials. Deviations from all-or-none behavior in a molluscan unstriated muscle: 439
- Deviations from all-or-none behavior in a molluscan unstriated muscle: Decremental conduction and augmentation of action potentials 439
- Dissection, physical structure, trans-surface potentials and microinjection. An isolated giant axon preparation from the lobster nerve cord 163
- Drugs on the sporogonous cycle of *Plasmodium gallinaceum* in *Aedes aegypti*, the comparative morphological and physiological effects of various 279
- DUN, F. T. The blockage of motor impulses in an asynchronized volley at the neuromuscular junction. *Comments and Communications* 348
- E**DWARDS, BETTY F. See Gray, Stephen W. 97
- Effect of dinitronaphthol on the membrane potential of the skeletal muscle fibre, the. *Comments and Communications* 345
- Electric eel, electrical properties of the innervated membrane of the electroplax of 249
- Electrical properties of the innervated membrane of the electroplax of electric eel 249
- Enzymatic properties from kinetic data obtained on living cells, the inference of intracellular. I. Some kinetic considerations regarding an enzyme enclosed by a diffusion barrier 1

- Estrogen on nuclear volumes and chemical composition, the influence of 529
- Experimental monosynaptic input-output relations in the mammalian spinal cord 413
- F**ROG, a correlated biochemical and histochemical study of succinic dehydrogenase activity in the gastric mucosa of the rat and 327
- Frog muscle, effects of phospholipases, collagenase and chymotrypsin on impulse conduction and resting potential in the lobster axon with parallel experiments on 183
- Frog nerve, on the optical change associated with activity in 53
- G**ELFANT, SEYMOUR, AND JACKSON J. CLEMMONS. The influence of estrogen on nuclear volumes and chemical composition 529
- GERSTNER, ROBERT. See Taylor, A. Cecil
- GRAY, STEPHEN W., AND BETTY F. EDWARDS. Effects of centrifugal forces on growth and form of coleoptile of wheat 97
- GRENNELL, R. G., J. MENDELSON AND W. D. MCELROY WITH THE TECHNICAL ASSISTANCE OF J. H. MENDELSON AND V. SONNENFELD. Neuronal metabolism and ATP synthesis in narcosis 143
- Growth and form of coleoptile of wheat, effects of centrifugal forces on 97
- Growth in tissue culture, evaluation by. I. Tissue survival after exposure to low temperatures and the effectiveness of protective pretreatments 477
- H**ARRINGTON, HELEN, AND PAUL S. LAVIK. A study of the phosphorus composition and P^{32} incorporation in irradiated lymphatic tissue 503
- HARVEY, E. NEWTON, AND FREDERICK I. TSUJI. Cypridina luciferin luminescence with strong oxidants. *Comments and Communications* 341
- Hemocyanin in crustacea, the respiratory function of 209
- I**NFLUENCE of estrogen on nuclear volumes and chemical composition, the 529
- Innervated membrane of the electroplax of electric eel, electrical properties of the 249
- Input-output relations in the mammalian spinal cord, experimental monosynaptic 413
- Intracellular enzymatic properties from kinetic data obtained on living cells, the inference of. I. Some kinetic considerations regarding an enzyme enclosed by a diffusion barrier 1
- Isolated giant axon preparation from the lobster nerve cord, an. Dissection, physical structure, trans-surface potentials and microinjection 163
- L**AVIK, PAUL S. See Harrington, Helen
- Living cells, the inference of intracellular enzymatic properties from kinetic data obtained on. I. Some kinetic considerations regarding an enzyme enclosed by a diffusion barrier 1
- Lobster axon with parallel experiments on frog muscle, effects of phospholipases and chymotrypsin on impulse conduction and resting potential in the 183
- Lobster nerve cord, an isolated giant axon preparation from the. Dissection, physical structure, trans-surface potential and microinjection 163
- LOEWENSTEIN, W. R., AND ALBERT SZENT-GYÖRGYI. The effect of dinitronaphtol on the membrane potential of the skeletal muscle fibre. *Comments and Communications* 345
- Lymphatic tissue, a study of the phosphorus composition and P^{32} incorporation in irradiated 503
- M**AMMALIAN spinal cord, experimental monosynaptic input-output relations in the 413
- MCELROY, W. D. See R. G. Grennell
- Mechanisms influencing the permeability of the blood-brain barrier 127
- Membrane potential of the skeletal muscle fibre, the effect of dinitronaphtol on the *Comments and Communications* 345
- MENDELSON, J. See R. G. Grennell
- MENDELSON, J. H. See R. G. Grennell
- Molluscan unstriated muscle, deviations from all-or-none behavior in a: Decremental conduction and augmentation of action potentials 439
- Monosynaptic input-output relations, a statistical theory of 373
- Morphological and physiological effects of various drugs on the sporogonous cycle of *Plasmodium gallinaceum* in *Aedes aegypti*, the comparative 279
- Muscle fibre, the effect of dinitronaphtol on the membrane potential of the skeletal. *Comments and Communications* 345
- N**ARCOSIS, neuronal metabolism and ATP synthesis in 143
- Nerve with activity, shortening of the, II. See Bryant, S. H., and Julian M. Tobias. Optical and mechanical concomitants of activity in caruncus nerve 71
- Neuromuscular junction, the blockage of motor impulses in an asynchronized volley at the *Comments and Communications* 348
- Neuronal metabolism and ATP synthesis in narcosis 143
- Nuclear volumes and chemical composition, the influence of estrogen on 529
- O**PTICAL and mechanical concomitants of activity in caruncus nerve. I. Effect of sodium azide on the optical response. II. Shortening of the nerve with activity 71

- Optical change associated with activity in frog nerve, on the 53
- Oxidants, cypridina luciferin luminescence with strong. *Comments and Communications* 341
